Early Intervention Program

Established Conditions List

Date:	April 27, 2021
From:	Birth to Three Early Intervention Program – Administration
Approval Date:	June 7, 2024
Signature :	Erin Rich
Effective Date:	May 27, 2021
Last Review Date:	3/13/2025

Purpose

The Birth to Three Early Intervention Program (the Program) maintains an Established Condition List that identifies prevalent physical or mental conditions that would qualify infants and toddlers for Part C services, in accordance with §303.21(a)(2) of the Individuals with Disabilities Education Act. The list is not exhaustive; if an infant or toddler is referred to the Program with a diagnosed physical or mental condition that is not on the Established Condition list, but meets the criteria set forth in §303.21 (2), the infant or toddler may be determined eligible for Part C services.

To appropriately reflect the evolving needs of children and families in Delaware, the established conditions list has been updated and will be implemented effective immediately upon administrative signature and approval.

"*" = follow until 12 months post referral – These ICD-10 codes do not always indicate permanent hearing loss.
"++" =applies until second birthday
All other diagnoses can be in effect until the child is three years old.
